Installing the Ebook Niche Explorer.....	3
Using the Ebook Niche Explorer .....	5
Options.....	6
Searching .....	7
Tracking .....	12

## Installing the Ebook Niche Explorer

From the download link, click the Download / Install Now button.

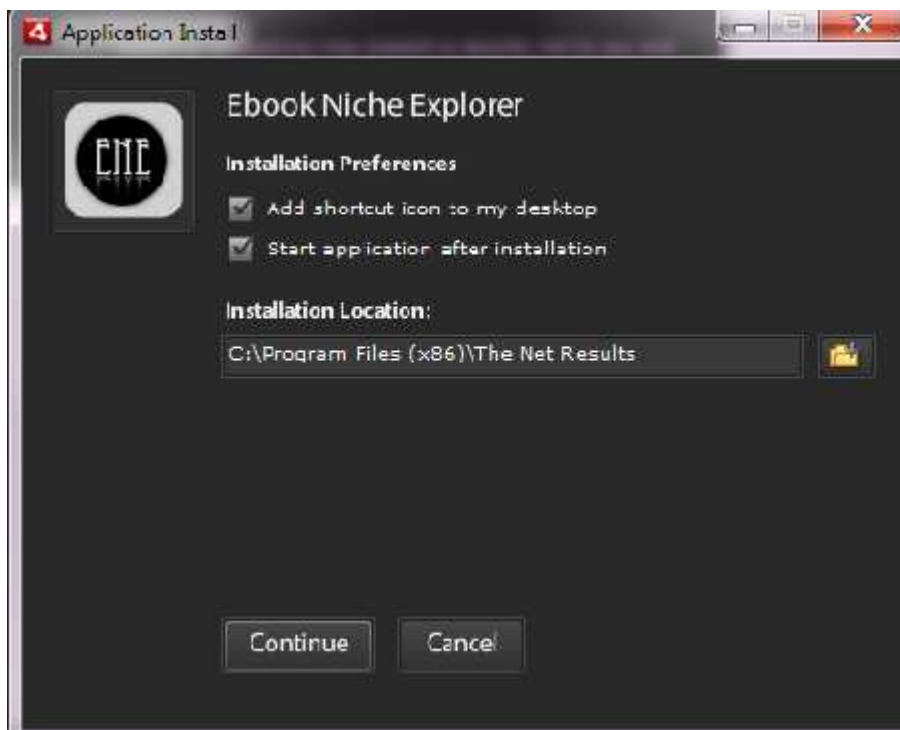

Once the Adobe Air Window opens, click Open to run the installer.

Next click 'Install' to install the software.

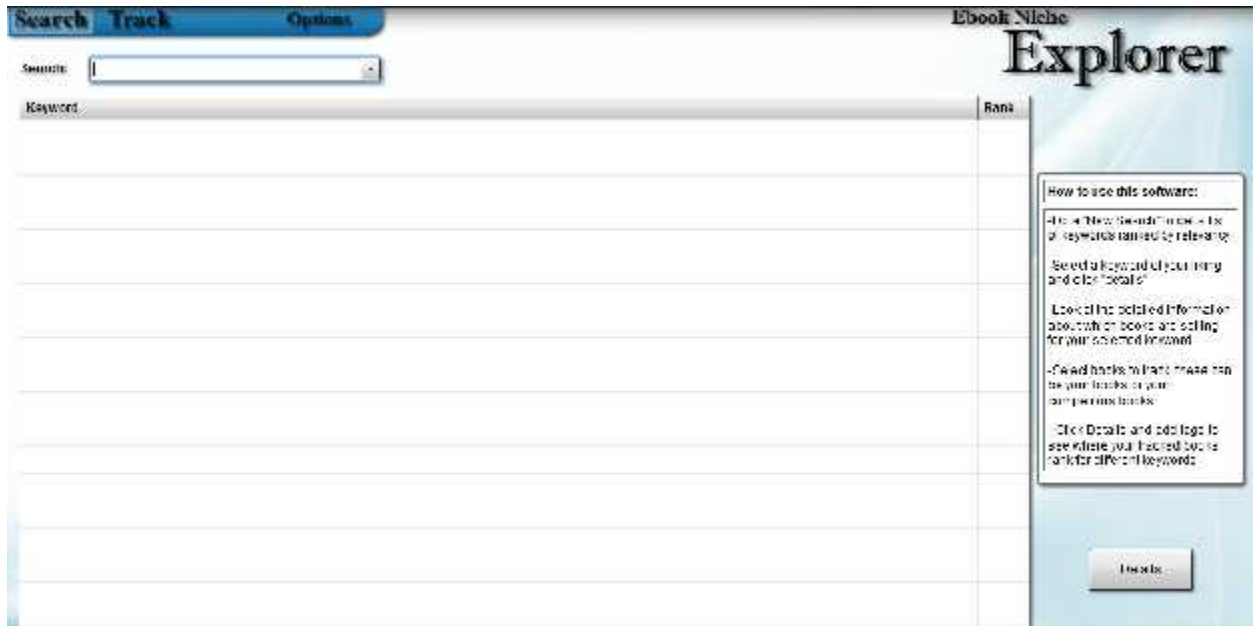

The next window will show you the default installation path for the software, and give you the options to create a shortcut and launch the program after installation.

## Using the Ebook Niche Explorer

Open the Ebook Niche Explorer. The home screen appears:

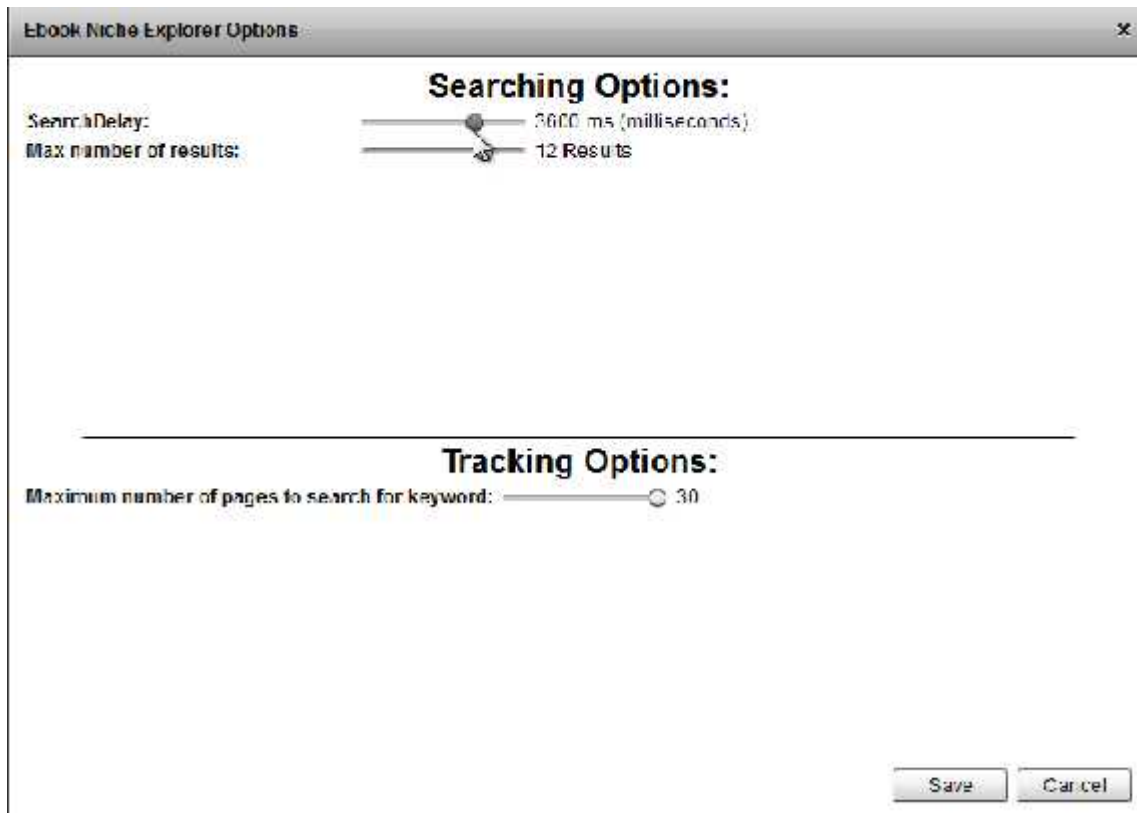

Across the top left hand side of the screen, you will see the navigation menu. Here you have the option to 'Search', 'Track', or set up 'Options'.

## Options

Let's take a look at Options first. Choosing Options opens the next Options window.

The first section is the Searching Options:

**Search Delay:** This tells the Ebook Niche Explorer how long to wait in between completing each search.

For the Search Delay setting, James Jones recommends the program default of 300ms.

**Max Number of Results:** This indicates how many results you want the Ebook Niche Explorer to retrieve each time you do a search.

James Jones also recommends the default value of 12, which is the total number of results on the first page of Amazon for that search term.

The next section is the Tracking Options.

Tracking Options refers to the Maximum number of pages to search for a keyword.

James Jones recommends this setting be between 28 and 30.

\*\*Make sure to hit the Save button if any changes are made to your settings.

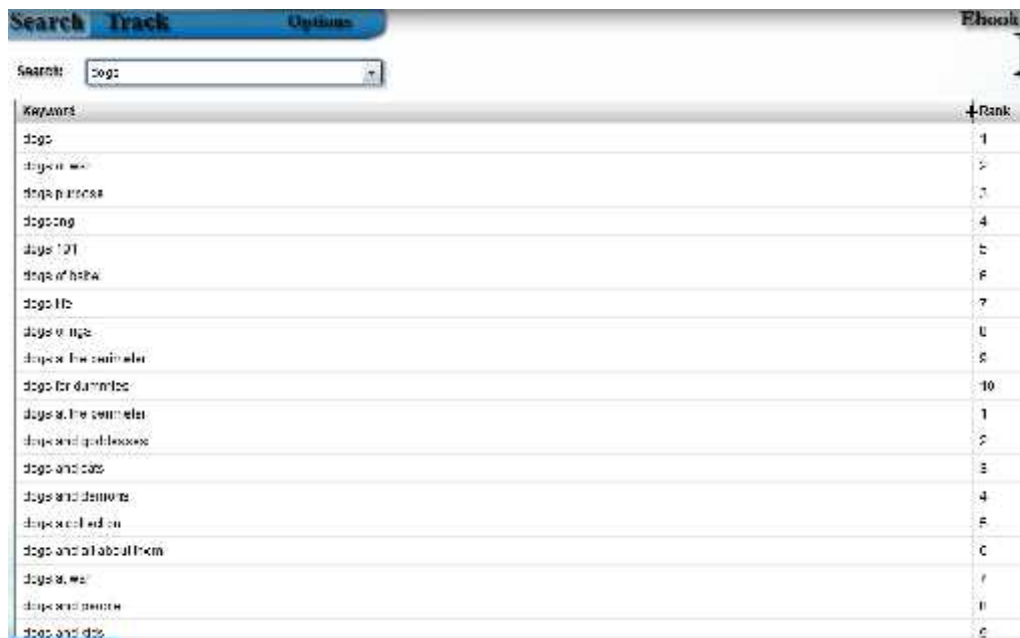

## Searching

Enter your keyword or phrase in the search box, and then click Enter.

The screenshot shows a web interface with a blue header containing the words "Search", "Track", and "Options". Below the header is a search box labeled "Search:" with a dropdown arrow. Underneath the search box is a section titled "Keyword" with a grid of empty rows for displaying search results.

A list of relevant keywords and their rank will populate into the grid below the search window.

The screenshot shows the same web interface as above, but now the search box contains the word "dogs". The grid below is populated with a list of keywords and their corresponding ranks. The keywords are listed in the "Keyword" column and the ranks are listed in the "Rank" column.

Keyword	Rank
dogs	1
dogs and cats	2
dogs pictures	3
dogs dog	4
dogs 121	5
dogs of h&w	6
dogs 112	7
dogs of dogs	8
dogs of the animals	9
dogs for dummies	10
dogs of the animals	11
dogs and puppies	12
dogs and cats	13
dogs and puppies	14
dogs and puppies	15
dogs and puppies	16
dogs and puppies	17
dogs and puppies	18
dogs and puppies	19
dogs and puppies	20

These keywords correlate to the “recommendations” that show up when you search in the Kindle Marketplace for the same phrase. We believe these “recommendations” are in order by the number of searches on Amazon.

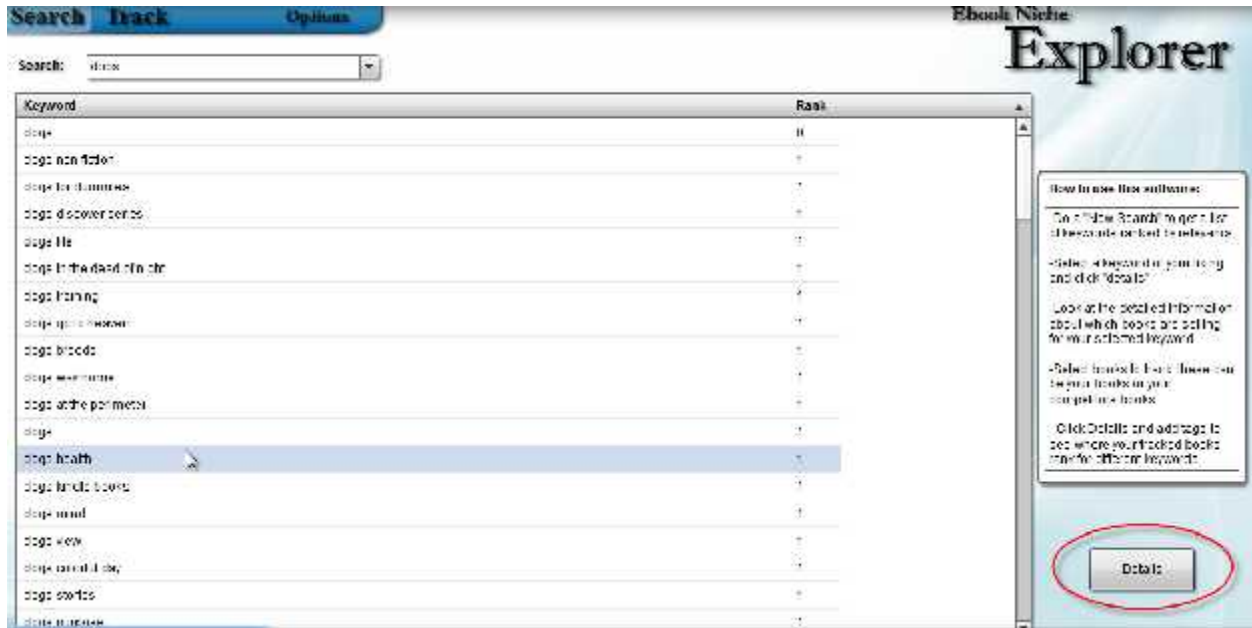

You can click on the ‘Rank’ column header to sort the keywords by position. The keywords that are in the top position are the words that are being searched the most frequently for your original phrase. (This is based on “Relevancy” on Kindle)

The screenshot shows a table of search results for the keyword 'dogs'. The table has two columns: 'Keyword' and 'Rank'. The 'Rank' column is circled in red, and a red arrow points downwards from the top of the 'Rank' column, indicating that the results are sorted by rank. The table lists various keywords related to dogs, such as 'dogs', 'dogs non-fiction', 'dogs for dummies', 'dogs of power series', 'dogs life', 'dogs in the disabled world', 'dogs training', 'dogs child behavior', 'dogs breeds', 'dogs why name', 'dogs at the perimeter', 'dogs', 'dogs health', 'dogs kinds books', 'dogs mind', 'dogs view', 'dogs colorful day', and 'dogs stories'.

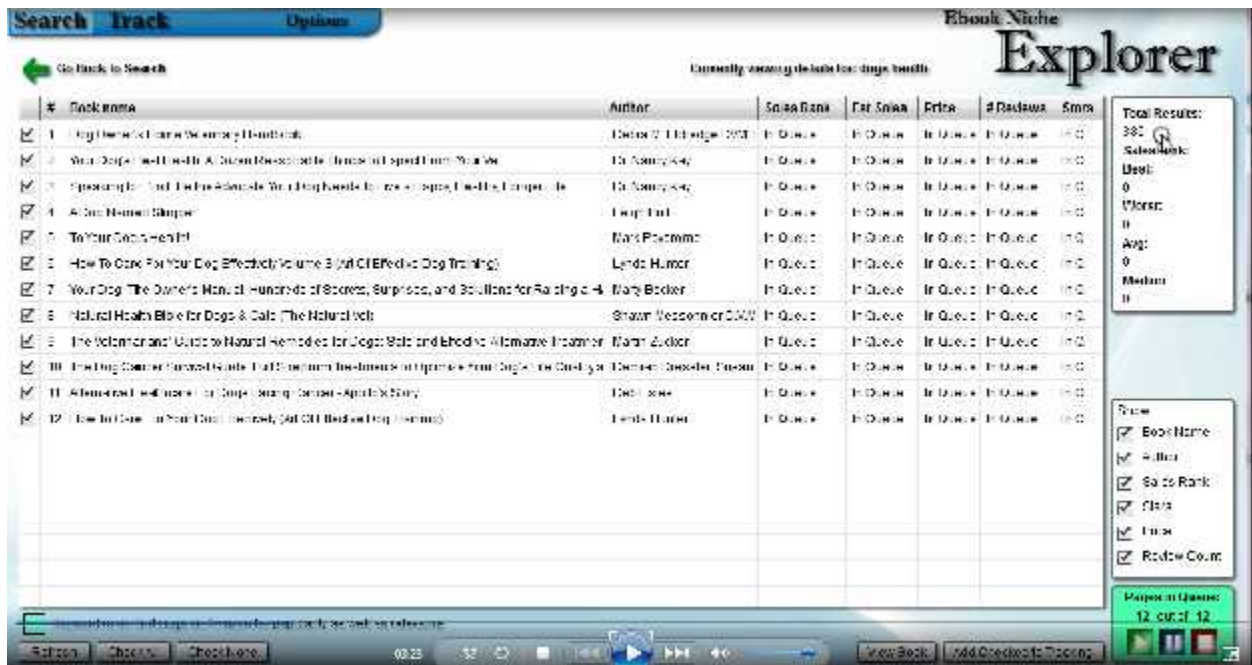

Keyword	Rank
dogs	0
dogs non-fiction	1
dogs for dummies	1
dogs of power series	1
dogs life	1
dogs in the disabled world	1
dogs training	1
dogs child behavior	1
dogs breeds	1
dogs why name	1
dogs at the perimeter	1
dogs	1
dogs health	1
dogs kinds books	1
dogs mind	1
dogs view	1
dogs colorful day	1
dogs stories	1

Once you've determined a keyword that you would like to take a closer look into, you can double click that keyword, or click 'Details' to open the new search window.

The new search window will show the top ebook results for that keyword phrase. (Number of results based on the settings options)

All details will show "InQueue" until the data has fully been processed.

From this screen you can see the Book Name, Author, Sales Rank, Est Sales, Price, # of Reviews, and number of Stars.

If a book title shows up in a teal colored highlight, this means that that book shows up on the first page of Amazon results when sorted by 'Relevancy' and when sorted by 'Popularity.'

<input checked="" type="checkbox"/>	9	The Veterinarian's Guide to Natural Remedies for Dogs: Safe and Effective Alternative Treatments	Martin Zucker	48927	N/A	\$11.99	32	4.8
<input checked="" type="checkbox"/>	10	The Dog Cancer Survival Guide: Full Spectrum Treatments to Maximize Your Dog's Life Quality	Denise Dressler, Susan	34692	-75	19.99	13	4.3
<input checked="" type="checkbox"/>	11	Alternative Treatments For Dogs Facing Cancer - A Practical Approach	Dan	186	N/A	79.99	13	4.8
<input checked="" type="checkbox"/>	12	How to Stop Your Dog From Howling: A Step-By-Step Guide to Stop Your Dog From Howling	Lynda Hill	168283	-13	47.99	4	5.1

Double clicking on a Book name will open your default browser to that book listing in the Kindle Store. Or you can click the 'View Book' button at the bottom right of the screen.

The number in the 'Sales Rank' column directly refers to the sales rank assigned by Amazon. That number can be found in the book's listing under 'Product Details'.

Sales Rank
93709
137824
155234
101
438266

James Jones has created a formula that calculates the estimated number of monthly sales a book should receive based on the Best Seller rating.

The final three columns refer to the price of the book, the number of reviews the book has received, and the number of stars.

Price	# Reviews	Stars
\$33.04	125	4.6
\$6.99	11	5.0
\$7.99	77	5.0

On the far right top corner of the Ebook Niche Explorer window, you will see the summary window.

<b>Total Results:</b>	386
<b>SalesRank:</b>	
<b>Best:</b>	101
<b>Worst:</b>	438266
<b>Avg:</b>	132590
<b>Median</b>	113347

When looking for a good ebook niche, James Jones recommends looking for at least 37 total results, best seller ranking under 25,000, and an average of less than 100,000.

The 'Median' is the average with the lowest and the highest number removed.

## Tracking

The Ebook Niche Explorer allows you to track books to see how they perform over time. You can track your own books, or your competitor's books.

You will first need to locate the ASIN number of the book that you wish to track. This information can be found in the 'Product Details' section of the book's listing on Amazon.

### Product Details

Format: Kindle Edition

File Size: 670 KB

Sold by: Amazon Digital Services

Language: English

ASIN: **B00006VY2I**

Text-to-Speech: Enabled

Lending: Enabled

Average Customer Review: ★★★★★ (1 customer review)

Amazon Best Sellers Rank: #176,235 Paid in Kindle Store (See Top 100 Paid in Kindle Store)

#02 in [Kindle Store](#) > [Kindle eBooks](#) > [Nonfiction](#) > [Business & Investing](#) > [Personal Finance](#) > [Budgeting](#)

Would you like to give feedback on images or tell us about a layout issue?

Once you have the ASIN number, click on 'Track' in the Ebook Niche Explorer window.

The screenshot shows the 'Ebook Niche Explorer' interface. At the top, there are buttons for 'Search' and 'Track', with 'Track' highlighted by a red circle. Below the buttons is a table of tracked books. The table has columns for '#', 'Book name', 'Author', 'Sales Rank', 'Est. Sales', 'Price', '# Reviews', 'Stars', and 'Total Results'. The first row is highlighted in green.

#	Book name	Author	Sales Rank	Est. Sales	Price	# Reviews	Stars	Total Results
1	Coupon Millionaire: How to Save Money and Make Money with the Art of Couponing	Nadine Brown	12962	~400	\$3.95	27	4.1	34
2	Pick Another Discount Lane: Honey, Save Big Money & Make the Grocery List your Favorite	Lucina Demora and Heather	6252	~150	\$4.95	73	4.0	3067
3	Coupon Guide: Save Guide - The Latest, Selected Free to Various Savings and Free Groceries	Angela Newsom and Will	22230	~200	\$2.95	11	5.0	1767
4	Couponing: How to Save Money, How to Get Money, and How to Use	Carol Annese	12005	~300	\$1.95	10	2.8	247014
5	Couponing 101: The Basics and Beyond	Paula Stone	15245	~100	\$2.95	5	1.5	1442

Click on the '+' symbol to create a new project, and then give your project a name.

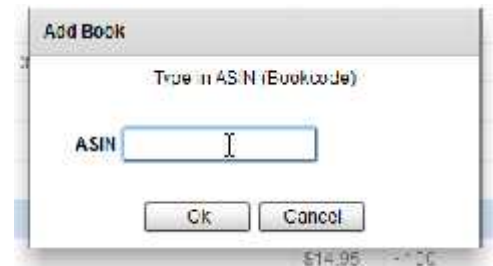

The 'Add Project' dialog box is shown. It has a title bar that says 'Add Project'. Below the title bar is a text input field with the placeholder text 'Select a name for new Project'. Below the input field is a label 'Name' followed by another text input field. At the bottom of the dialog are two buttons: 'Ok' and 'Cancel'.

If you have already completed a search for that keyword, the Ebook Niche Explorer will locate that search and display the results.

To add a new book (from the ASIN number), click 'Add Book' in the bottom left hand corner of the window.

Here you will enter the ASIN number of the book you wish to track. That book will then be added to the results grid.

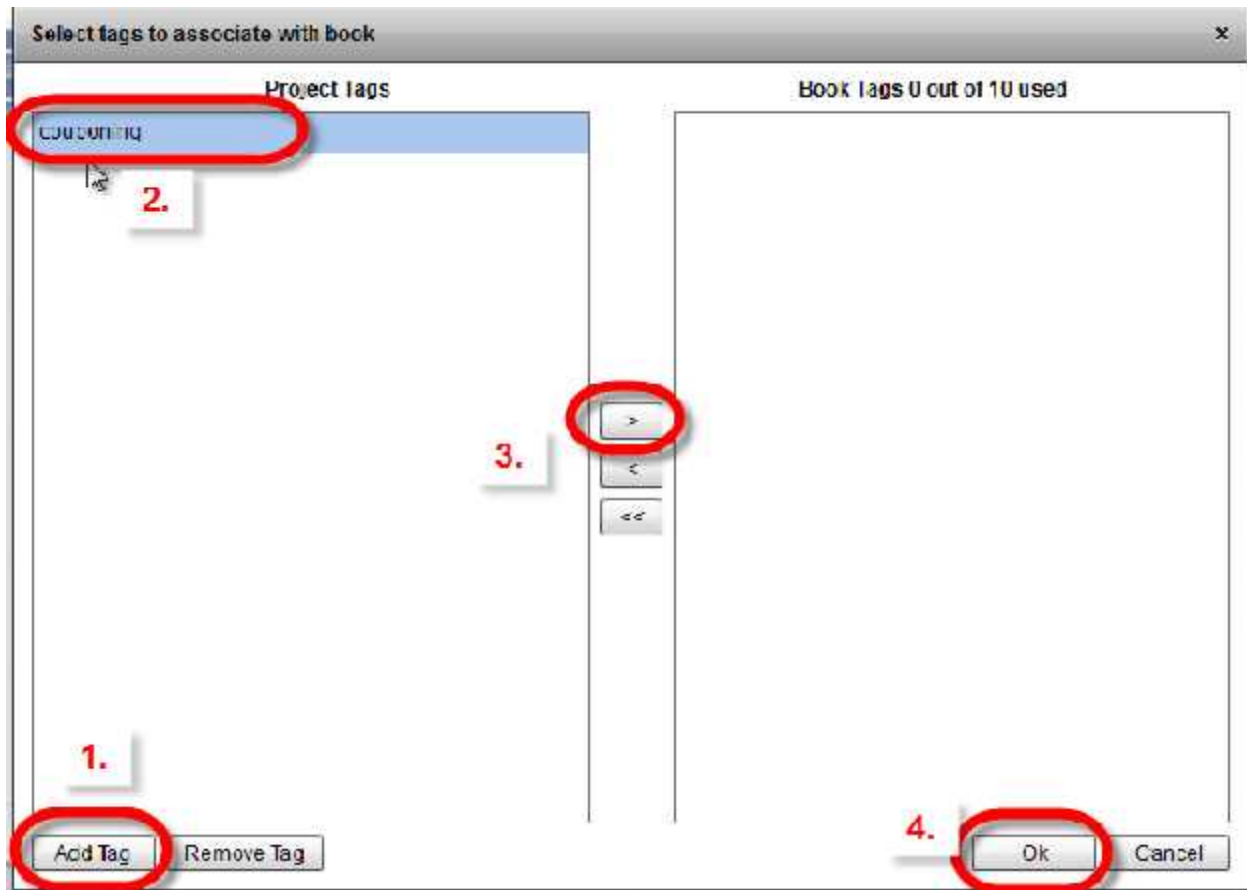

Once you have entered your book, you can click on that listing in the results grid, then click 'Details' in the bottom right hand corner of the window to open the tag tracking window.

Choose your book title from the drop down box, then click 'Add Tag.'

The 'Add Tag' window will then open. Click 'Add Tag' again, and enter your tag word(s). Then click the tag in the 'Project Tags' column and click the arrow to add it to the 'Book Tags' column. Then click 'OK.' You can add up to 10 tags.

The next window will show you your total rank for that tag, and what page number your book is on in the Amazon listing. You can hit 'Refresh Data' any time to update the information.

Tag	Total Rank for Tag	On Page #
coupons	27	3

At the bottom of the window, there are buttons for 'Add Tag', 'Remove Tag', and 'Refresh Data'. The 'Refresh Data' button is circled in red.

Over time, your Ranking Chart will start to build based on the data recorded each time you check your tag rank.
