**Description:** Air charter is the renting of an entire aircraft as opposed to individual aircraft seats. The jet rental niche has grown dramatically in recent years due to advanced Internet communication, increasing airline problems, lower cost options, and growing popularity in the airline community. While the airlines specialize in selling transportation by the seat, air charter companies focus on individual private aircraft and itineraries, urgent or time-sensitive freight, cargo, air ambulance and any other form of ad hoc air transportation. As an affiliate marketer, all you need to do is get your affiliate link in front of this audience because they ARE going to buy from someone, and it might as well be you!
