Choosing a Winning Niche: Quick Start Niche Selection Blueprint

Choose your MAIN keyword(s) by searching under Kindle Store category and watching the Suggested Amazon Keywords (these are the things people are searching for).

- Search should have at least 22 results but no more than 500.
- Average Best Sellers Rank of page one results should be below 200,000 = Good/ Below 100,000 = Great.
- At least 1 book on page 1 that has Best Sellers Rank of 25,000 or less (the more the better)

Example:

Keyword Search: fart book

The screenshot shows the Amazon website interface. At the top, the Amazon logo is on the left, and navigation links for 'Nget's Amazon.com', 'Today's Deals', 'Gift Cards', and 'Help' are on the right. Below the logo, there's a 'Shop by Department' dropdown menu and a search bar containing 'Kindle Store' and 'fart book'. A secondary navigation bar includes links for 'Kindle Store', 'Buy A Kindle', 'Free Reading Apps', 'Kindle eBooks', 'Kindle Singles', 'Newsstand', 'Popular Games', 'Accessories', and 'Discussions'. On the left side, there are filters for 'Your Country or Region' (United States), 'New Releases' (Last 30 days, Last 90 days), 'Department' (Kindle Store, Kindle eBooks), and 'Avg. Customer Review' (5 stars & up, 4 stars & up, 3 stars & up, 2 stars & up). Below these filters is a 'Listmania!' section with two book lists: '4th and 5th grade favorites: A list by Book Mom "Book Mom"' and 'Can't put down, bust a gut laughing--best books for 5th graders: A list by Gina L. Christoffel "G. Nardini Christoffel"'. The main content area is titled 'Kindle Store > "fart book"' and shows 'Showing 1 - 12 of 72 Results'. The first five results are listed: 1. 'The Fart Book: Whiff it, Sniff it, Lay it, Rip it! - Milo Snotrocket J.B. O'Neil (Kindle Edition - Apr 18, 2012) - Kindle eBook' with a Prime price of \$0.00 and a buy price of \$0.99. 2. 'When Farts Had Colors by Mark Thomas, Kerry Holjes and DM F...' with a Prime price of \$0.00 and a buy price of \$2.99. 3. 'Sweet Farts: Book 1 by Raymond Bean and Nick Podehl (Audiobook)' with a buy and download price of \$5.95. 4. 'Rippin' It Old School: Sweet Farts, Book 2 by Raymond Bean at...' with a buy and download price of \$5.95. 5. 'Doctor Proctor's Fart Powder by Jo Nesbo, Mike Lowery and Ta...' with a buy price of \$6.99. Each result includes a book cover image, the title, author, price, and customer ratings.

There are 72 results so this meets the first criteria.

The next criteria is Average Best Sellers Rank of page 1 results should be below 200k so we have to open up each eBook listing, find the Best Sellers Rank for each one and take the Average.

Looking at the first eBook scroll down to the Product Details section.

Amazon Best Sellers Rank: #9,129 Paid in Kindle Store ([See Top 100 Paid in Kindle Store](#))

#2 in [Kindle Store](#) > [Kindle eBooks](#) > [Children's eBooks](#) > [People & Places](#) > [Social Situations](#) > [Manners](#)

#17 in [Books](#) > [Children's Books](#) > [Social Situations](#) > [Manners](#)

#82 in [Kindle Store](#) > [Kindle eBooks](#) > [Fiction](#) > [Children's Fiction](#) > [People & Places](#) > [Social Situations](#)

Would you like to [give feedback on images](#) or [tell us about a lower price?](#)

As you can see the Best Seller Rank is 9129. Locate the Best Seller Rank for all 12 eBook listings. Then add them together and divide by 12 to get the average.

Note: Skip any FREE eBooks and don't include them in the average. For example, if two of the eBooks on the first page are free you would only average 10 numbers.

Averaging the 12 eBooks on Page 1 for the example we come up with 170,274 which means this is a good niche.

The third criteria is:

At least 1 book on page 1 that has Best Sellers Rank of 25,000 or less.

There are 3 that meet this criteria so we are good there as well.

Based on the criteria this looks like a good niche!

Note: eBook Niche Explorer is a great all-in-one software tool that does all the calculating for you. You can check it out here:

Kindle Ranking Blueprints

This section will show you White Hat, Gray Hat, Black Hat Techniques for promoting your Kindle eBooks and getting laser targeted leads.

I will also show you “Dunce Hat” Tactics that show you what “NOT” to do so you don’t get your account banned as well.

I will also cover the best On-Site (Amazon) and Off-Site (Google) Blueprints to gain massive amounts of laser targeted buyers to your Kindle eBooks.

The White Hat techniques alone should be enough to get your eBooks ranked to page 1 of the Kindle results for your chosen keyword *if* you follow the guidelines we have laid out for you below on choosing a niche.

I have included Gray Hat and what some would call Black Hat techniques so that you will be informed of the Tactics and Methods that your competition may be using to gain an unfair advantage over you. It’s completely up to you if you want to push the envelope and employ the Black or Gray Hat techniques yourself.

However, we strongly urge you to stay away from the Dunce Hat techniques.

These are the techniques that have the highest risk of getting your eBook removed or even your account blocked.

We’ve included them so you’ll know what NOT to do in case you receive bad advice elsewhere or see someone else employing these techniques.

These Blueprints are designed to give you fast and furious rankings within Amazon as well as Google and make you profitable within the least amount of time with the least amount of effort on your part.

Based on your risk tolerance you may choose to use or forsake the Black Hat & Gray Hat tools, but at least you will be informed of the techniques that others are using to gain an unfair advantage over the uninformed.

When using the outsourcing and using the Gray Hat and Black Hat techniques, your outsourcers will need to have an Amazon account or multiple Amazon accounts depending on what you are trying to accomplish.

Make sure ALL job requests to outsourcers state that they need to have an Amazon account and that they must have used that account to buy something from Amazon in the past... anything... a CD, DVD, book – it doesn't matter what it was.

Off-Site (Google) Kindle SEO Ranking Blueprints

Since Amazon is a trusted site within Google and gains a massive amount of links throughout its site on a daily basis, we are going to use this to our advantage without getting hit with any of the penalties that you would incur trying to rank a book on your own site.

I'm going to show you the top insider secrets to getting ranked in Google using the most expensive and sophisticated tools in the SEO industry without having to buy any of them yourself!

The following tactics are the top linking strategies that the gurus and top marketers use to get their products catapulted to the top of the search engine, bringing in floods of traffic and cash.

We are going to use Amazon's trusted authority with Google to get our products listed for the top searched keywords for your eBook in Google.

We will use Fiverr.com to do this on the cheap, big time!!!

Fiverr has ALL the people we would ever want that have already bought the most expensive tools in the industry and are using them to make money on a massive scale.

Knowing which Fiverr gigs to use to get your books ranked fast - after the Panda and Penguin updates - is half the battle. That's where I come in.

You need to know this:

Google is now placing much greater emphasis on Social Voting and Social Signals with the Panda & Penguin update. So, now one of the main ranking factors is your Social Popularity in the eyes of Google.

For example, how many Facebook "Likes", how many reviews are there about you on social sites and the number of Google +1 "votes" as well as how many people are currently discussing you on Twitter.

The following Blueprints are the ones I use to gain an unfair advantage over the uninformed competition and now you will have that same knowledge.

My suggestion is use only one tactic at a time, measure the results and resume back-linking strategies with multiple keywords.

You will want to use these different services to link directly back to your money sites, which will be your:

Kindle eBooks

Fanpages

Youtube Videos

Web 2.0 Properties (we will be discussing in further detail in these Blueprints)

Listmania Lists (we'll show you this in Blueprint #5)

Let's get started.....

BluePrint Tactic # 1:

Retweet Twitter Domination

This strategy can be used with www.Fiverr.com as well as sites like Twitter Backlinks at www.twitterbacklinks.com and www.retweetadvertising.net

The more people talking about you in a given time the better.

1) Go to Fiverr.com

Type in “Retweet” in the search bar over on the right

Once your search comes up, click on the Ratings link to search by the best rated gigs first.

Here is a great example of a Fiverr provider Gig you may want to go for:

A second rapid option, if you have the money is to use a site like Twitterbacklinks.com.

This site is great because you're dealing with a real company vs. an individual on Fiverr.com and you get your tweets spread out over a period of month which looks more natural in the eyes of search engines.

Note that the number quoted is Tweets per day!

The screenshot shows the Twitterbacklinks.com website. At the top, there is a navigation bar with links for HOME, HOW IT WORKS, FAQ, CASE STUDY, LARGE PLANS, and AFFILIATES. Below the navigation bar is a main heading: "Build Massive Social Buzz To Your Tweets Using... Huge Twitter Network of Unique Users All Promoting Your Message/URL".

Below the heading is a diagram illustrating the service. It shows "Your Tweet(s)" (represented by a single blue bird icon) leading to a "Re-Tweet Network" (represented by a grid of many blue bird icons). This is followed by an equals sign and a "Search Engine Rank Increase" (represented by a bar chart with an upward-trending arrow and dollar signs).

Below the diagram is a pricing table with four columns: Basic, Advanced, Pro, and Enterprise. Each column lists the number of ReTweets per month, the number of ReTweets sent per day, and the monthly price. At the bottom of each column is a button: "3 Day Free Trial" for Basic and Advanced, and "Register Now!" for Pro and Enterprise.

| Basic | Advanced | Pro | Enterprise |
|---|---|---|---|
| 150 ReTweets to your Tweets per month | 600 ReTweets to your Tweets per month | 1,500 ReTweets to your Tweets per month | 3,750 ReTweets to your Tweets per month |
| 5 ReTweets sent per day | 20 ReTweets sent per day | 50 ReTweets sent per day | 125 ReTweets sent per day |
| \$9/mo | \$36/mo | \$75/mo | \$150/mo |
| 3 Day Free Trial | 3 Day Free Trial | Register Now! | Register Now! |

A third rapid option is to use: Retweetadvertising.net

This service can provide Re-tweets in a 24-48 hour turnaround.

This site is another great site and gives you a fast turnaround if you need it for a faster blast out for immediate traffic and it has a lower price structure than TwitterBacklinks.com

TESTIMONIALS

A very professional business with results that are superb. The results came very quickly and I don't regret at all choosing the services of RetweetAdvertising.Net. I would recommend your services to my friends.

- Jack Paulsen

After several experiments with different companies, I can only recommend your website, unlike your competition which provided me unresponsive followers, with you I've had real active followers who would retweet my updates and spread my message. I will order your services again, thank you for

What to Tweet?

First, we need to remember, every tweet in Twitter is limited to only 140 characters. This includes spaces. A convenient tool to count your characters can be found here: <http://www.lettercount.com/>

Here are some examples of great re-tweet's with a call to action:

- Just read this Great Book on "keyword here" Pickup a free Copy here <http://amzn.to/TCeNPT>
- Get Free Kids Books "keyword Title" Just Give a Review <http://amzn.to/TCeNPT>
- Need Your Help! Pls Like & Review - Free Copy of "Keyword title here" <http://amzn.to/TCeNPT>

Twitter Quick Tips:

- 1) Use Word Shortcuts: "with" will become "w/". "Love" will become "Luv" "Retweeting" becomes "RT-ing" . You'll have to be creative.
- 2) Drop Vowels: As long as it's still readable, you can do things like turn "boardroom" into "brdrm".
- 3) Pretty obvious but, "It is" will become "it's" and "cannot" will become "can't". Remember, every character and space counts.
- 4) The word "And" can become "+". That's a savings of two characters you can use where it may count more.
- 5) Using Other Characters: You'll have to be a bit careful here, since some characters drive Twitter's functionality. But, I've used "#" for "number" and "%" for "percent".

- 6) Get rid of useless words like ("the," "an").
- 7) Turn Words into Numbers: "To" becomes "2" and "One" becomes "1".
- 8) Remove Extra Spaces: Twitter will count double spaces between words.
- 9) Shorten Links: TinyURL is good, but bit.ly actually produces shorter links. So visit the actual site and then use bit.ly or another service to resqueeze the URL.

(Best Bet- use a redirect script on a real short domain you own - that way you can pass the cookie if needed as well as being sure link juice gets passed) here is an example: www.freebkz.com/yourKeyword (not a real domain - just an example).

You can generate the code to redirect a domain at this site here for free:
<http://www.affilorama.com/free-tools/redirect-generator>

Blueprint # 2- Fanpage Likes Blueprint

Fanpages rank exceptionally well on Google and it will benefit you greatly to have a Fanpage built for you like this one here:

<http://on.fb.me/NeIDTF>

....or this one: <https://www.facebook.com/thesecond>

The screenshot shows the Facebook profile for 'The Secret'. The page features a large banner with the title 'The Secret' in a stylized font and the tagline 'ASK. BELIEVE. RECEIVE.' Below the banner is a profile picture of a red wax seal with a white 'S'. The page is categorized as a 'Company' with the description 'When you know The Secret, your life will change forever.' and the website 'www.thesecond.tv'. Navigation tabs include 'About', 'Photos', 'The Secret Book & Film', 'The Magic', and 'The Power'. A 'Post' box is visible on the left. On the right, there are several sponsored posts, including one for 'ContestBurner' and another for 'RetailMeNot'. The page has 946,069 likes and 56,570 people talking about it.

Of course, you will want to have this done by someone else and done quickly since you will want to concentrate on building your business, not working in it.

Here's an example of another Gig on Fiverr that you can use to have a Fanpage built for you fast. <http://bit.ly/PrZP7F>

BluePrint Tactic # 3: Google+ Likes Blueprint

Google has been making important changes to the way search and SEO works for personalized results.

It now matters how visible you are in Google+ (G+) and that means the number of followers you have.

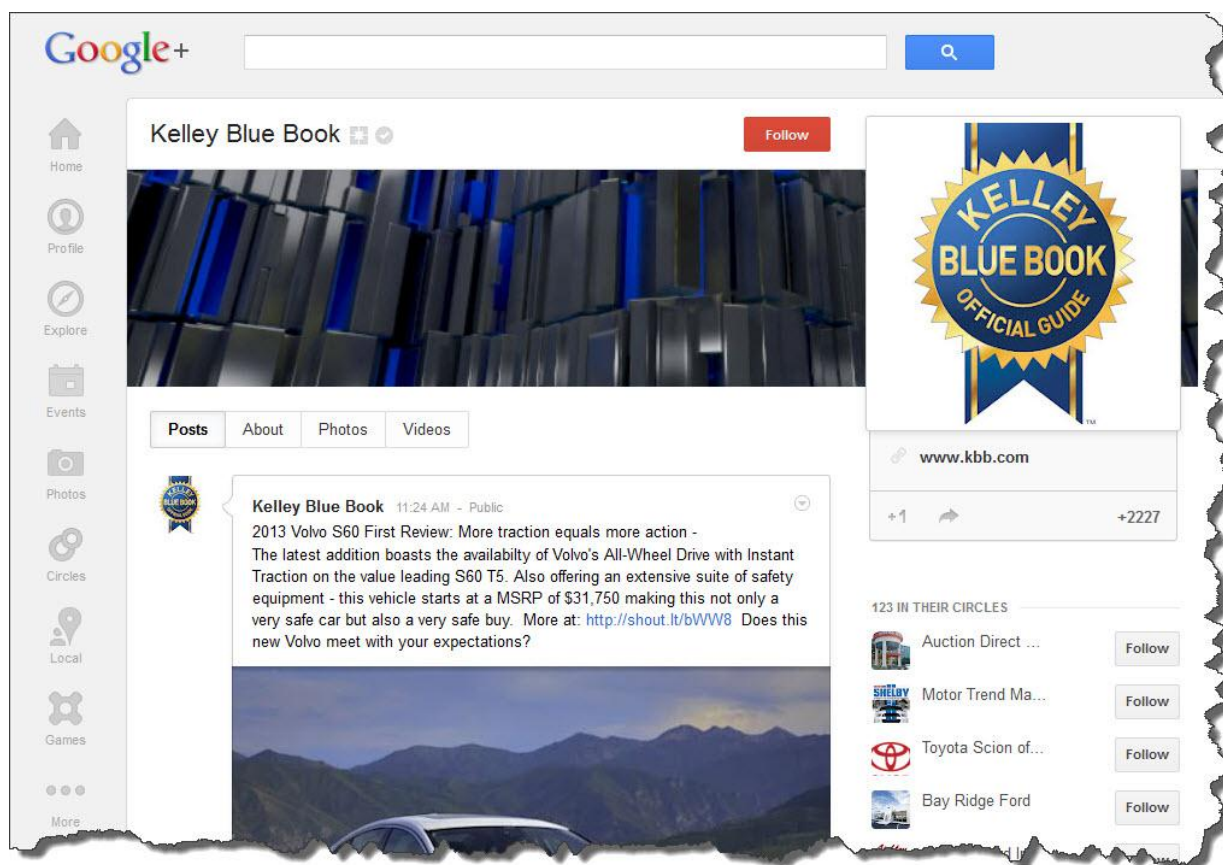

You can get a head start over your competition by getting a unique G+ Page for your Kindle eBook and then getting 100's of followers which increase your chances of getting picked up in personalized search.

Google+ followers can link directly to any Photo, Video, Event or Link (your Kindle eBook's link) that you want Google to take notice of.

First thing to do is head over to Fiverr again and get someone to build you a Google+ Page centered around your Kindle Book. Look for Gigs like this:

The image shows a screenshot of a Fiverr gig listing. At the top left is the Fiverr logo. The main title of the gig is "I will create a Google+ page for \$5". To the right of the title is a yellow "Order Now (\$5)" button. Below the title, it says "CREATED 6 MONTHS AGO, IN SOCIAL MARKETING". The seller's name is "bulliegraphics" with a "rated 95%" badge. The gig details show "2 days" for estimated delivery, a "100%" gig rating, and "0 orders" in queue. There is a "2 LEVEL" badge. The description under "Collect" reads: "Google+ pages brings you closer to your customers, fans and followers. We will create a new page on Google's latest social network Google+ and brand it with your logo and images. Once complete we will add to our circles and assign your Gmail Account or e-mail address as page manager." There are social sharing buttons for Tweet, +1, and Like. A central image shows a Google+ page layout with a red circle around the "+You" button and a red arrow pointing to it. Below this are three smaller thumbnail images of different Google+ page designs. At the bottom, there is a green banner for "Gig Extras" with a checkbox for "I will create a panoramic of your selected image on your page" for an additional \$5. On the right side, there is a search bar, a "Surprise me" button, and a list of categories including Gifts, Graphics, Video, Social Marketing, Travel, Writing, Advertising, Music & Audio, Fun & Bizarre, Tips & Advice, Business, Technology, Programming, and Other. At the bottom right, there is a "FIVERR USER PROTECTION POLICY" badge.

Here is a good example of what you can show your Fiverr person what you want your page to look like: <http://bit.ly/Ri7TxW>

Then the next step would be to gain as many followers as you desire. Look for a Gig like this on Fiverr to get you noticed quickly (see next page).

Request Gigs™

Head on over to Fiverr and look for a Google+ Gig like the one pictured here above.

Once you find one that interests you, pay the Fiverr person \$5 and provide them with the link to your newly created Google+ Page that you want to get ranked for your Kindle eBook.

My suggestion though would be to see if the Fiverr person can build these links over a period of a few week's time, and then point to your Google+ Page to push you up in the search engine rankings.

The other option is to provide the Fiverr person with the link to whatever web property you want to rank in the search engines and have them give it a Google+ vote on their own multiple accounts they have created.

BluePrint Tactic # 4: Web 2.0 Domination

We all know Google favors certain sites: sites that have Super high pagerank, Social credibility as well as sites that receive thousands of backlinks a day.

Instead of building these sites by hand, you can have people on Fiverr build you custom Web 2.0 properties that feature your book. Because these sites are trusted by Google, they will be easy to get ranked on page one using the linking strategies that are discussed in this guide

Sites like Blogger, Squidoo, and Hubpages, Wordpress and Blogger rank fast using the Fiverr techniques I have discussed above, as well as the backlinking tactics which I'll show you in the next few Blueprints.

For example, when I type in "Organic Gardening book" into Google I get these results:

The screenshot shows a Google search for "organic garden books". The search bar contains the text "organic garden books" and the search button is visible. Below the search bar, the results are displayed. On the left, there is a navigation menu with options like "Web", "Images", "Maps", "Videos", "News", "Shopping", and "More". The main content area shows an advertisement for "Get Free Cloud VPS for 14 days from Host1Plus.com". Below the ad, there are search filters for "Sort", "PR", "I", "L", "LD", "I", "Rank", "Age", "Sitemap", "Rank", and "Price". The search results list "Organic Gardening Mag" as a sponsored link. The first organic result is "Amazon.com: Organic Gardening Books" with a URL snippet. The second result is "Amazon.com: The Organic Garden Book (American Horticultural ...)" with a red bracket next to it. At the bottom, there are more search filters for "SEOquake", "PR", "I", "L", "LD", "I", "Rank", "Age", "whois", "source", "Sitemap", "Rank", and "Price".

....which gives me this result below:

The screenshot shows the Amazon product page for 'The Organic Garden Book (American Horticultural Society Practical)' by Geoff Hamilton. The page includes the Amazon logo, navigation links, a search bar, and product details. The book cover features illustrations of various plants and vegetables. The product title is 'The Organic Garden Book (American Horticultural Society Practical)' by Geoff Hamilton. It has a 5-star rating from 2 customer reviews and 0 likes. The book is available from these sellers: 7 new from \$12.99, 41 used from \$0.48, and 2 collectible from \$19.95. The formats table shows the Hardcover price at \$28.50 (used at \$0.60) and the Paperback price at \$12.99 (used at \$0.48). There is also a 'Tell the Publisher!' section with a Kindle icon and a link to get a Kindle or download the Kindle Reading App.

Another example of How Web 2.0 sites like Youtube can rank well for High competition keywords is below (the keyword search word is “Organic Gardening”).

Notice a Youtube video is featured at #7 and Forum posts are ranking on the 1st page at #9 and #10. These would be very easy to beat out with a couple of Web 2.0 sites featuring your Kindle eBook and just a few backlinks .

Rather than waste your time showing you Google’s flavor of the month favorite Web 2.0 sites, let me show you how to find tons of them on your own without the need to sign up for some monthly membership like “Angela’s or Paul backlinks” <http://angelasbacklinks.com/> and <http://pjsqualitybacklinks.com/> .

Don’t get me wrong, using (once or twice) Angela’s “done for you service” is a cheap and fast way to gain some top PR backlinks and boost your Kindle rankings in Google , I just don’t like to have to rely on a monthly subscription.

So here it is, the first way to see what the most trafficked web sites are (and have your outsourcer or Fiverr person build you for you) is to look here: <http://www.quantcast.com/top-sites>

The screenshot shows the Quantcast website interface. At the top, there is a search bar and navigation links for 'Sign In', 'Create Account', 'Opt-Out', and 'Privacy'. Below the search bar, there are tabs for 'HOME', 'PLANNER', 'FAVORITES', 'LEARNING CENTER', and 'MORE'. The main heading is 'Top Sites for United States', with a dropdown menu for the country. There are two tabs: 'All Sites' and 'Mobile Web'. A descriptive text box explains that the list ranks websites based on the number of people in the United States who visit each site within a month. Below this, there is a 'Download Top US Sites' button and navigation controls for 'Previous', 'Rank 1', 'Go', and 'Next'. The main content is a table with two columns of data, each with 10 rows. The first column lists the top 10 sites, and the second column lists sites ranked 51 to 60. Each row includes a rank, a site name with its logo, and the number of monthly people. A 'DIRECTLY MEASURED' indicator is present for some sites.

| RANK | SITE | MONTHLY PEOPLE | DIRECTLY MEASURED | RANK | SITE | MONTHLY PEOPLE | DIRECTLY MEASURED |

Another site to search which gives you the Top 500 sites on the internet is Alexa.com, located here: www.alexa.com/topsites

The screenshot shows the Alexa website interface. At the top, there's a navigation bar with 'Home', 'Products', 'Top Sites', 'Site Info', 'What's Hot', 'Toolbar', and 'Dashboard'. Below this, there's a search bar and a 'Free Download Top 1,000,000 Sites (Updated Daily)' link circled in red. The main content area is titled 'Top Sites' and lists the top 500 sites on the web. The 'By Country' and 'By Category' tabs are highlighted with red boxes. The list of top sites includes Google, Facebook, YouTube, Yahoo!, Baidu.com, and Wikipedia. On the right side, there are advertisements for 'FULL TIME UNIVERSITY' and 'SEO & Link Building'.

Notice you can search by Country and Category.

One technique I like to use to diversify the IP addresses of the sites linking back to you is to search by going down the list of Top Sites and picking out the foreign country social media or networking sites.

For example, look for Baidu.com or QQ.com, then go to Fiverr and just search for "Chinese" (look for the Country flag next to the Gig as well) and look for potential people that would be able to set up a social media site for your Kindle eBook.

Another Great Tactic is to look for sites based in Amazon countries like Spain, France, and the UK (especially if your book is listed on those sites within your kindle account as well). Then, just pay them the \$5 through Fiverr.com and Blast it with the backlink methods mentioned in this guide.

BluePrint Tactic # 5: Amazon's Listmania

What is a Listmania?

Amazon's Listmania is a list of products that someone (you or your outsourcer) likes.

With Listmania, you can create lists on any topic you can think of and Amazon will display products that match your recommendations.

Listmania lists can drive huge amounts of traffic to your book listing using the backlinking methods that we include in this guide,

You will gain laser targeted traffic both with Amazon's internal search traffic and from search engine placings in Google as well.

The Pros of using Amazon's Listmania to market your books are:

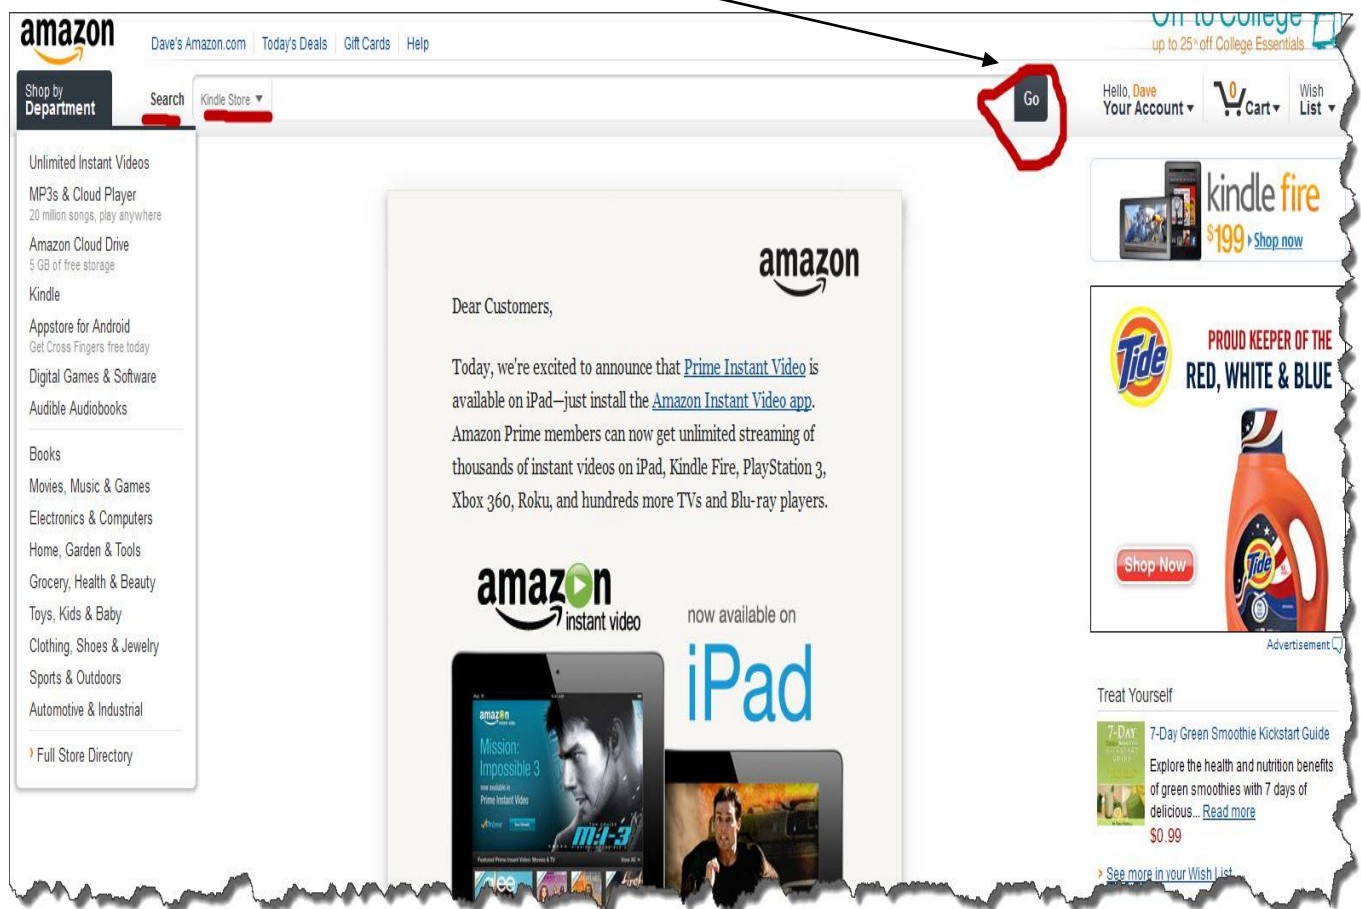

1. Listmania lists can also get awesome coverage on high trafficked book listings, getting you more exposure for your book(s).
2. They will rank well in Google and usually really fast.
3. Done the correct way, you can link to your own book(s) without being penalized, in any way.
4. If the user is on Amazon already, there is less resistance to buying since that is what they are usually there for in the first place.
5. Listmania lists can also get awesome coverage on high trafficked book listings, getting you more exposure for your book(s).
6. If the person sees your Listmania listing in Google, they are more likely to click on a trusted source like Amazon vs. another website.

To create a Listmania list:

Go to Amazon.com and log into your account (or have Fiverr outsourcer do this).

Then the easiest way I found to find where to input your Listmania is to click on any category (I prefer Kindle Store category) like below:

Then just hit the “Go” button

Then scroll down to the Listmania Link pictured below and click “Create A Listmania! list”

My suggestion here is to make a list of all your own (Category/Keyword related) Kindle Books ASIN's in notepad and sprinkle in a few Other Top Ranked / selling eBooks from other authors, as well.

If you have only one eBook – grab your ASIN number along with a few other Top selling books from other Authors and add them to your Listmania like pictured below:

Hit select to add your book, then hit “Add Another “ to add the rest of the books ASIN numbers (add a range of 5-15 books in total).

Use the ‘Add your comments’ field are to sprinkle in your main Keyword Phrase.

After adding all your books & comments, hit Preview, then Publish, if everything looks good.

Then start hitting your Listmania List with the backlink methods in this guide!

Tagging BluePrint System

There are basically two ways to help you get Tags and Likes on your Kindle Listing—which in turn help you to boost your Kindle Rankings above all your competitors. Choose based off your own risk tolerance levels.

White Hat:

- Let Tags and Likes come in naturally
- Have friends & family tag and Like your book
- Market your book via twitter or FB and on Kindle Select Promotion Days, tell people they can get your book for free if they Like, Tag and leave a review for you (suggestion –make ghetto video showing them how to do this).

Black Hat

To add Tags to your book, you can use the following site to get numerous people to (with different IP addresses) Like and Tag your book.

<http://microworkers.com/>

Dunce Hat

Do not use <http://microworkers.com/> to leave reviews for your book, you will get your account banned.

Dunce Hat - DO NOT use Mechanical Turk

<https://www.mturk.com/mturk/welcome> This site is owned by Amazon, but it is a great site to use for other non-Amazon/Kindle related tasks.

Dunce Hat:

Using Fiverr to get Reviews, Tags, Like:

I don't recommend this technique because the same people on Fiverr are doing the work for everyone.

Even if they are using different Amazon Accounts, it's still easy for Amazon to track this.

**If you do decide to do this - you would want to search by "Ratings" as this will bring the best and most reliable people to the Top.

Just as a reference, this would be the most legitimate way to receive reviews from Fiverr.

The main content area is titled "Author Program - use Goodreads to promote yourself and your books". It includes sections for "What is the Goodreads Author Program?", "What Can You Do as a Goodreads Author?", and "Promote Your Books". A sidebar on the right contains links for "View all 46727 authors", "Author q&a groups", "Author guidelines", "Author program how to", "About us", "Contact us", "Advertise", "Help", "How it works", "Librarian manual", "Author program", "API", "Jobs", "Our blog", and "Press". There are also social media links for "Follow Goodreads on Twitter" and "Follow Goodreads on Facebook". At the bottom right, there is a "sponsored books" section featuring the book "The Bride Stands Alone" with a book cover image and a short description.

Black Hat:

Use Craigslist to find individuals to Review/Like/Tag.

You write the reviews for them and just have them post it to Amazon.

To the right, a 'KDP Select Fund' section shows '\$600,000 for July 2012' and '\$600,000 for August 2012'. Below this is a table of books with columns: 'Select All', 'Title', 'Contributors', 'List Price', 'Date Submitted', 'Status', and 'KDP Select'. The first row shows a book with a list price of '\$ 2.99', a date of '12/14/2011', and a status of 'Live'. The 'KDP Select' column has a green checkmark and an 'Info' link. Above the table are controls for 'Actions', 'Add new title', 'Show 10 entries', 'Filter All', and a search bar.

Once you have your first book added to the KDP platform, you can choose to have your book promoted by Amazon by offering it initially for free (you can do this up to 5 times in 90 days).

The best way to do this is by offering your book for free once every other week or so. Then once you get some downloads and reviews under your belt, increase the price to .99 cents up to 2.99 or more, depending on the sales and percentage of commission you want to achieve.

To do this from the same screen you are currently on from above, click on the book you want to promote.

Then click on the “Actions” button and click on “Manage Promotions”.

Video Review Ranking Blueprint

One of the best ways to boost your sales is to have others create video testimonials for your Kindle eBook.

Video testimonials absolutely need to be done by others and not yourself when directly placed on your products page.

Caveat: You can place video reviews about another product on their page and subtly mention your eBook as well.

So, for the most part, video testimonials have to be done by a different account other than your own.

White Hat:

- Have friends & family do a short video testimonial using their cell phone or flip camera and have them upload it to your product review page.

1. Your reviewer will need to be logged into their Amazon account in order to be able to upload the video review.

The screenshot shows the Amazon product page for the Kindle eBook 'How To Catch A Leprechaun: How to Trick A Wee Person!' by Crystal Chandler. The page includes the Amazon logo, navigation links, a search bar with the product name, and a 'Go' button. Below the search bar, there are navigation links for various categories. The product title and author name are displayed, along with a star rating of 4.5 stars based on 4 customer reviews and 12 likes. The price information shows a digital list price of \$0.99 and a Kindle purchase price of \$0.99. A callout box with a red arrow points to the 'Write A Review' section, which is located below the price information. The callout box contains the text: 'Scroll Down to "Write A Review" Section'. The page also features a 'For Kindle Device Owners' section with information about borrowing the book for free with Amazon Prime. The bottom of the page shows the 'Book Description' section with a publication date of July 7, 2012.

2. Have them scroll down to where Amazon asks to "Write a Review" and click on the "Write a Review" button.

The Borrowed Credibility Blueprint

In the Borrowed Credibility Blueprint what we will do is make Comments using special Amazon links on high traffic, high volume sales Kindle eBooks that point directly back to your Kindle creation.

You will be using the same Blueprint previously recommended in this guide

White Hat:

- Have friends & family make a comment under the top reviews on top selling related eBooks and books that link back to your book using the “Insert a Product Link” button to the right of where they post their comment. They will need to insert the ASIN number associated with your Kindle eBook and pick a category which you will give them that relates to the book and write a review for the related product.

Note: A good ways to find related books to post comments on are to pull up your book or other top selling books and look at the “People who bought this product, bought this as well” and pick the related books preferably the ones with minimal reviews so yours shows up at the top.

Let’s say the book below is your book. Now notice the books under “People who bought this Item also bought “, Amazon shows the items other people bought along with your book.

What you are looking for here are books that have a great Sales Rank say from 1-50k and also have a low amount of reviews (1), and at the time of this writing, the two books circled above have a sale rank between 13k and 29k which is great.

What you want to do here is have family and friends write a review under these types of books giving the other author's book a good review while at the same time giving mention to your book and include a link back to your book in this review. Here's how:

Sophisticated Tools Blueprints

"I'm going to show you the top insider secrets to getting ranked in Google using the most expensive and sophisticated tools in the SEO industry without having to buy any of them yourself!"

All the following Tools-Gigs can be found on Fiverr to get numerous backlinks to your money sites FAST!

Basically, what you want to do is go to Fiverr and type the tools name in the search box on Fiverr.

You will then provide the Fiverr person the link and keywords for the site you want to have ranked in Google.

For example, your site or video may be hosted on the following:

Your Youtube Video

Your Link to your Kindle Book on Amazon

Your Web 2.0 Property ie...Blogger, Squidoo, Wetpaint

So the 1st thing you'll want to do is create what is called a Link Wheel or Link Pyramid back to your Kindle eBook site - whether it is hosted on Amazon, Youtube or any Web 2.0 site like Blogger, Squidoo, Wetpaint.

A great description and picture of a link wheel can be found here:

http://www.ehow.com/how_5334096_build-wheel-traffic.html

As well as a Link Pyramid here:

<http://theseopub.com/wp-content/uploads/2011/01/Link-Pyramid1.jpg>

As you can see from a simple Google Images search here, Link wheels and Pyramids can get pretty involved <http://bit.ly/Nt8gix>. So it's best to have someone else create all this work fast and cheap vs. creating it all yourself.

This can be accomplished with SENuke X (below).

Just search Fiverr for the Keywords, SENuke, Link Wheel, Link Pyramid and give the Fiverr person with a link to your main site that you are trying to rank. Again whether it is Amazon, Youtube, Blogger or all of them, you want to rank more than one site or for more than one keyword.

Here are some example Gigs on Fiverr:
